A Warm and Friendly Kit

Simple Peripherals for Tracking Vitals

NO FUSS

Warm and Friendly Kits

Dynamic Branching Logic

Multi-Media Content Delivery

Cellular and Wifi Connectivity

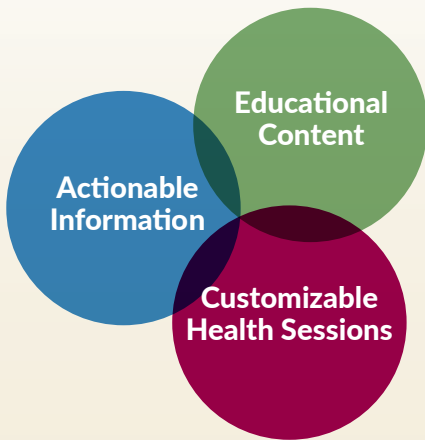

Quick and Easy Device Set Up

Simple Bluetooth Pairing

THE RIGHT INFORMATION AT THE RIGHT TIME

Obtain actionable insights. We help you avoid data overload and alert fatigue by providing you with actionable information... data you need to see, when you need to see it.

Engage veterans with interactive health sessions using videos, audio and images. We provide customizable education and daily health sessions related to CHF, diabetes, mental health, and many other disease states.

Create health sessions that use dynamic branching logic and multiple ways to collect answers to encourage behavior modification. Our educational videos and documents contain content on co-morbidities.

LESS CLICKS, MORE CARE
